"The bathroom as a dynamic and stylish living space, transforming itself continuously along with your home"

Ex.t is an Italian design brand for bathroom furniture that holds the “made in Italy” craftsmanship ethos as its core value. Modularity, versatility and functionality are the main features that Ex.t continues to offer in bathroom furnishings, achieving this through the creative approach of its international designers coming from the home design world. The bathroom becomes a

dynamic living space, able to transform and renew itself continuously, following the rhythms of contemporary living. The results are original solutions adaptable to different environments, different space needs and functionalities with special care and attention to the finest details.

Nouveau Collection

by Bernhardt & Vella

A collection of washbasins, cabinets, mirrors and accessories featuring geometric and sinuous lines, born from a balance of basic and classic shapes such as circles, semi-circles and parallelepipeds, creating a game of volumes in a succession of full and empty spaces. Freely inspired by early 20th century Art Déco, the collection takes refined suggestions from that era and reworks them with the taste and sensitivity of a contemporary perspective.

Nouveau / vanity unit

Nouveau / mirror

Nouveau / washbasin

“We’ve translated a serene and discrete elegance into purity, balance of lines and shapes, lightness and airiness. Probably our more feminine side turning into a sweet, soft, but also contemporary and pragmatic sign.”

Founded in 2008 by German designer Ellen Bernhardt and Italian interior designer Paola Vella, Bernhardt-Vella is an interior design studio based in Milan.

Their starting point is research as a maieutic process. Taking inspiration from the art world, the masters of the past and architecture, they create their distinguishable and always personal style.

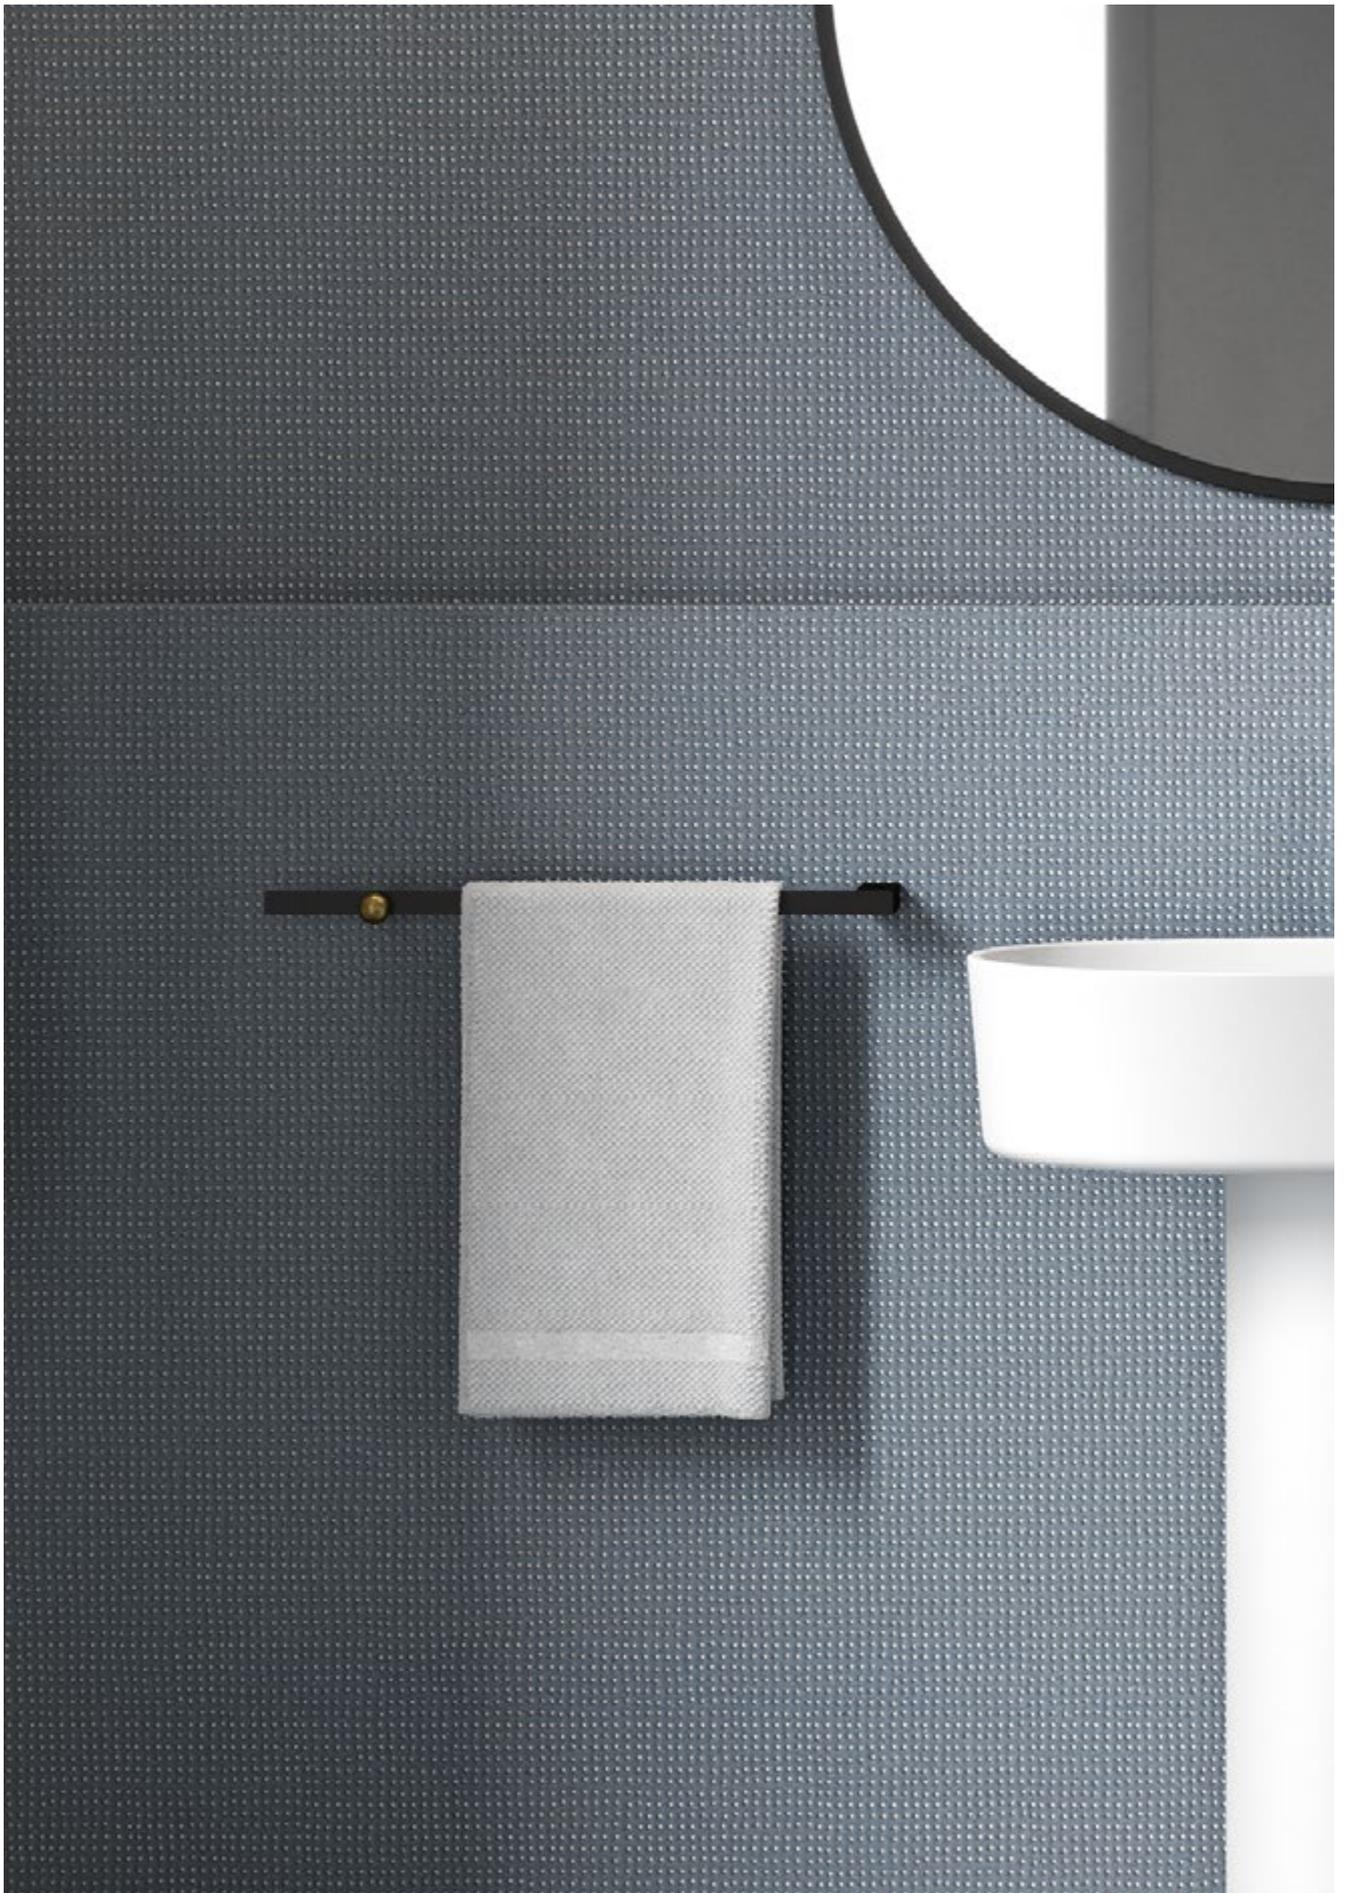

Nouveau / vanity unit

Nouveau / mirror

Nouveau Accessories

Nouveau collection enriches with a whole line of bathroom accessories: towel holders, paper holders both freestanding and wall mounted, hooks, shelves and two make-up mirrors. Also Nouveau accessories feature simple geometries such as spheres, rectangles and cylinders. The brass sphere works as a decorative detail and as a functional element at the same time.

Arco Collection

by Mut

Arco is a product characterized by functional versatility and material blend. Conceived for the bathroom, Arco can turn into a design for many spaces by adding or taking off different elements. Arco is available in matt black and brushed brass, with an integrated mirror and a shelving system hiding on the back which increases the functionality of the object.

Arco / console

Arco S / console

Arco / mirror

Arco S

Arco S is an elegant round console. Like the original it features a hidden shelving system on the back to store small objects along with a washbasin and taps, it has also been conceived in a home version, as a unique vanity console or a piece of furniture for the entrance of your home.

Mut

“Our mission was to rethink an already versatile product in order to turn it into an exciting collection.”

MUT is a Spanish design studio founded by designer Alberto Sánchez and Eduardo Villalón in 2010.

Since the very beginning MUT philosophy is based on the principle of emotive design, aiming to experiment and redefine everyday objects. Their award-winning products are regularly featured in magazines around the world and at the present time they are listed among the most highly regarded designers of their generation.

Arco Mirror

The geometric oval and round shapes together with versatility and multifunctionality are the main features of the entire collection now complemented with a series of smaller mirrors with hidden shelves: Arco Mirror (available horizontal and vertical) and Arco S Mirror.

Conceived by the designers as accessories, these mirrors offer many options: they can be set together thanks to a game of different depths or used as single objects in many living spaces.

Arco / mirror

Nudo Collection

by Mut

Nudo is a multifunctional wall mounted or hanging system. Featuring different modules in two dimensions and a light airy metal structure available in black, brushed brass and steel, it is a versatile object conceived to meet many interior requirements.

Nudo / shelving system

Stand / bathtub

Hang small / stool

A series of accessories like mirrors, containers and trays complete the compositions turning Nudo into a functional dividing element as well as a shelving system; towel hanger or a vanity mirror depending on your needs.

Nudo / shelving system

Plateau / washbasin

Stand Collection

by Norm Architects

Iconic collection inspired by the Modernist style of 1920s and 1930s interiors, Stand design features the original spirit of Nordic design. Geometric purity, simple naturalness and sober authenticity coexist in a perfect balance between functionality and aesthetic, giving life to objects that are sculptural and elegant yet light and airy at the same time.

Frame Collection

by Norm Architects

Frame is a modular system of bathroom consoles and furniture.

Winner of EDIDA prize 2017 for bathroom category, the collection features a straight and minimalist design, turning in a delicate piece with a Nordic allure. A flexible system consisting of a number of graphic frames, customisable depending on your needs and with a functional purpose.

The main structure is designed to accommodate the basin as well as a counter top in various materials. Thanks to its versatility, Frame is a perfect solution for any living space.

Rest Collection

by Norm Architects

Rest line is inspired by poufs, daybeds and chairs that are used in fitting rooms and wardrobes. Conceived to create something that can be used in the bathroom and beyond the collection pushes a new concept of comfortable seating.

Rest / pouf

Rest / daybed

Felt / modular system

Hang tall / stool

Frame / modular system

Rest Lounge Chair

The design of Rest Lounge Chair is inspired by the way Japanese people use to sit on the floor and lean on the surrounding furniture to rest: thus, the low and wide backrest can be a regular support for the back when in a sitting position or a comfortable support for a short rest if standing.

The small armchair is characterized by a tubular metal structure refined with small brass details. The cushion and backseat create a graphic game of circles that overlap when viewed from different angles.

Rest / lounge chair

Felt Collection

by Norm Architects

The word Felt in Danish means "field" or "frame", referring to the space created between a grid and various shelves. Felt is a modular wall mounted unit which can be used to hang small accessories such as bags and scarves, or used as a decorative element. Featuring a grid structure, Felt can be customised with shelves, round and squared mirrors as well as open or close storage modules. It's a multifunctional and versatile unit ideal to provide a lot of solutions for every living space.

Ribbon Collection

by Sebastian Herkner

Featuring a bathtub and washbasins Ribbon collection is designed by Sebastian Herkner. The concept is developed starting from the metal band put under the washbasin which combines support functionality and aesthetic along with giving brightness and refinement to the product. From here the featured materials merge together creating a contemporary product with a strong personality.

Ribbon / console

Nouveau / mirror

Ribbon / bathtub

Ribbon Square

Sebastian Herkner enriches Ribbon collection with Ribbon Square: a square-shaped wall-mounted washbasin of small dimensions, designed for cosy spaces. Like the oval sink and the bathtub, Ribbon Square features functional and aesthetic elements that give brightness and sophistication to the product.

Ribbon square / washbasin

Plateau / mirror

Plateau Collection

by Sebastian Herkner

Plateau Collection is inspired by the idea of playing and experimenting with shapes and colours to create a set of products that are stylish as well as useful and versatile. That's how a sidetracking plateau came up, becoming the stylistic leitmotif for the entire collection. Functional and elegant, this detail is a feature in every piece from the bathtub and washbasin to the mirrors, just as a shadow in movement sets down on different surfaces whilst keeping its shape.

Sebastian Herkner

“Bathroom furniture is becoming more and more a piece of design, a kind of sculpture to show off in the house among the other furnishing.”

German designer Sebastian Herkner, has been awarded Designer of the year by Maison&Objet Paris 2019. His designs come from a continuous research of new shapes and traditional craftsmanship. As a passionate globetrotter his work takes inspiration from all over the world.

Raso Collection

by Sebastian Herkner

Raso line features two unique design lamps made of glass. Inspired by the softness of a silky texture, they give a soft and delicate light thanks to the contrasting clear and frosted glass which defines the design. Raso lamps are exclusive pieces to give a touch of style to various living spaces from the bathroom and the bedroom to the shop and the restaurant alike.

Raso / lamp

Fuse Collection

by Note Design Studio

Fuse lamps designed in 2013 by Swedish studio Note Design Studio get enhanced of two new shades: green and brown. Fuse lamps combine Italian craftsmanship with the essence of Nordic aesthetics, in a perfect blend of materials and style. The sense of touch and the visual impact play a fundamental role in Fuse lamps design: the soft ceramic creates a stylistic continuum with the small wooden hat that lights up when the lamp is on, giving warmth to the whole room.
