Countertops

ARKLAM FOR COUNTERTOP ARKLAM PARA ENCIMERAS DE COCINAS

Arklam Countertops collection is a new sintered mass that provides solutions for kitchen countertop with character and personality. Born as a result of a deep study of decorative trends and the most contemporary demands.

Its large dimensions, 1600x3200 mm, and the extremely high-performance technical features make it an ideal material for the most demanding product applications such as kitchen countertops.

La colección Arklam Countertops es una nueva masa sinterizada que aporta soluciones para encimeras de cocinas con carácter y personalidad, nacida del profundo estudio de las tendencias decorativas y las demandas más contemporáneas.

Sus grandes dimensiones de 1600x3200 mm, y sus características técnicas de alto rendimiento lo convierten en un material idóneo para las aplicaciones más exigentes como son las encimeras de cocina.

100% Made in Spain

100% Hecho en España

COUNTERTOP & WALL: PIERRE BLEU HOND R. 1600X3200X12
FLOOR: PURE BLACK SILK 1000X3000 RECT.

Arklam arises to respond to the new needs of professionals in architecture and interior decoration.

With this vocation, Arklam has consolidated itself as a reference product for its exceptional technical features, which represent a step forward in the coating of all types of surfaces.

Arklam is an innovative solution of large format sintered mass, which stands out for its resistance, durability and design and which has been created specifically for the most exclusive and demanding projects.

Arklam surge para dar respuesta a las nuevas necesidades de los profesionales de la arquitectura y la decoración de interiores.

Con esta vocación, Arklam se ha consolidado como un producto de referencia por sus excepcionales prestaciones técnicas, que suponen un paso más allá en el recubrimiento de todo tipo de superficies.

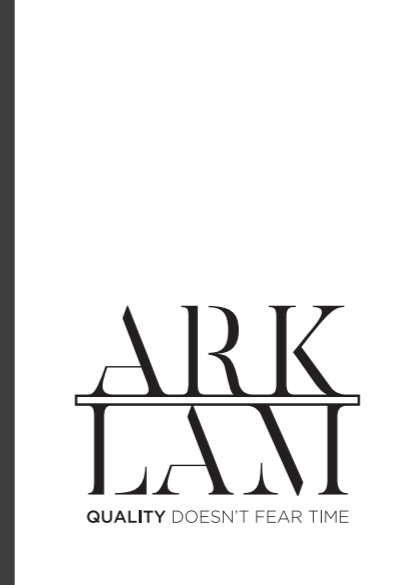

Arklam es una innovadora solución de masa sinterizada de gran formato, que sobresale por su resistencia, durabilidad y diseño y que ha sido creada específicamente para los proyectos más exclusivos y exigentes.

SINTERED MASS COLOURED BODY
MASA SINTERIZADA COLOREADA

Arklam Countertops is a sintered mass coloured body with which we created amazing designs for countertops of sophisticated kitchens in different finishes: Silk, highly resistant; Polished, with a mirror reflection that brings depth and elegance; Polished Matt, with a slightly polished matte effect; and River Washed, a natural finish with a stone effect.

Arklam Countertops es una masa sinterizada coloreada con la que podemos conseguir diseños totalmente integrados para la creación de encimeras de cocinas sofisticadas gracias a sus acabados: Silk, altamente resistente; Polished, con un reflejo de espejo que aporta profundidad y elegancia; Polished Matt, con un efecto mate ligeramente pulido; y River Washed, un acabado natural con un efecto piedra.

For optimal maintenance of Arklam Countertops, regular cleaning with a rag moistened with soap and water is recommended. In addition, it is advisable to clean stains as soon as they are produced and not to let them dry out. If the stain is not recent and has become embedded, warm soapy water should be applied for a few minutes to soften the dirt and then removed with a damp rag.

As for the material used to remove the stains, we recommend soft rags and blue anti-scratch pads. The more respectful the material used for cleaning, the better the maintenance of the worktop.

Abrasive products or bleach should be avoided at all times. If the latter is used, it should be lowered with water and not left to act on the Arklam surface for a long time. It is important to pay special attention to the polished finish as it is more sensitive to abrasive products than other finishes.

Although Arklam's sintered mass is fire and heat resistant, whenever possible, a protector should be used to support hot pots or pans. It is also important to use cutting boards to avoid cuts and knocks on the worktop as much as possible, especially when using ceramic knives and instruments.

Arklam Countertops is a material with a high resistance to shocks, scratches, heat and chemicals. But it is always important to take care of the material, protecting it as much as possible as you would any other type of countertop.

Para un mantenimiento óptimo de Arklam Countertops, se recomienda una limpieza habitual con un paño húmedo con agua y jabón. Además, es recomendable limpiar las manchas en el momento en el que se producen y no dejar que se sequen. En caso de que la mancha no sea reciente y se haya incrustado, hay que poner agua tibia con jabón durante unos minutos para que la suciedad se ablande y después retirar con un paño húmedo.

En cuanto al material empleado para retirar las manchas, se recomienda que sean paños suaves y estropajos azules anti-rayaduras. Cuanto más respetuoso sea el material utilizado para limpiar, mejor será el mantenimiento de la encimera.

Se deben evitar en todo momento productos abrasivos o lejías. En el caso de utilizar esta última, se deberá rebajar con agua y no dejar actuar durante mucho rato sobre la superficie Arklam. Es importante prestar especial atención al acabado pulido puesto que es más sensible a los productos abrasivos que otros acabados.

Aunque la masa sinterizada de Arklam es resistente al fuego y al calor, siempre que sea posible se utilizará un protector para apoyar las ollas o sartenes calientes. También es importante el uso de tablas de cortar para evitar en la medida de lo posible los cortes y los golpes sobre la encimera, sobretodo en el caso de utilizar cuchillos e instrumentos de cerámica.

Arklam Countertops es un material con una alta resistencia a los golpes, al rayado, al calor y a los químicos. Pero siempre es importante cuidar el material, protegiéndolo lo máximo posible igual que se haría con cualquier otro tipo de encimera.
