## Essential design, colourful attitude

In un tempo in cui tutto cambia è ancora possibile delineare uno stile dell'ambiente più intimo della casa, il bagno. Lo studio della materia, la ricerca di una geometria essenziale e di volumi puri ottenuti attraverso un processo di sottrazione, trova un nuovo potenziale espressivo in forme uniche, dove il colore si alterna alla purezza del bianco. Sono forme generose e accoglienti che comunicano la loro essenza, all'apparenza naturale e semplice, e invitano a entrare in un mondo archetipico. Sono oggetti originali che hanno personalità, carattere, energia e lasciano spazio a libere interpretazioni. Questa la filosofia per creare elementi capaci di entrare con naturalezza nel quotidiano.

In times where everything is changing, it is still possible to create a specific style for the most intimate space of the home: the bathroom. The study of materials and pursuit of simple lines and clean volumes created via a process of subtraction are endowed with renewed expressive power thanks to unique forms, where color alternates with the pureness of white. The generous, welcoming shapes embody their seemingly natural, simple essence, inviting you to enter an archetypal world. They are original objects, brimming with personality, character and energy, and leave ample space to freedom of interpretation. This is our philosophy for creating elements capable of merging seamlessly with the everyday.
